

- 1) Find out the applications of recursion
- 2) Is recursion still used in the present programming era if so where.
- 3) What are the Languages that support recursive calls.

- 1)
 - 1) Factorial
 - 2) Fibonacci series
 - 3) Tower of Hanoi problem
 - 4) Binary search
 - 5) Tree traversal
 - 6) Graph Traversal
 - 7) Merge sort
 - 8) Quick sort
 - 9) Finding GCD
 - 10) Power calculation
 - 11) Palindrome checking
 - 12) Backtracking problems (N-Queens, Sudoku)

2) Yes, recursion is still widely used in modern programming, although developers sometimes replace it with loops or iterative approaches when recursion could cause performance or memory issues.

where it is used :- file system traversal, Tree data structures, Graph algorithms, sorting algorithms, Backtracking algorithms.

3) C, C++, Java, Python, C#, JavaScript, Go, Rust, Swift & Kotlin
